Materials.it 2016 is one of the main Italian National Conference on Materials Science and Technology. It will be held from December 12th to 16th, 2016 in Aci Castello at the Sheraton Catania Hotel. *Materials.it* 2016 represents a great opportunity to gather the large community of scientists involved in materials science and related applications, working at Universities and Research Institutions. This first edition is promoted by the Physics and Chemistry Departments of the National Research Council of Italy, with the support of the Italian Institute of Technology, ENEA and the CNISM and INSTM consortia.
